

My goal is to empower our employees, including those in the SS&TP, to continue doing the great work they do every day for our dedicated clients and their missions all over the world.

Andrea Kunk, President, Peerless Technologies

COMPANY AND ORGANIZATION NEWS

Peerless Names New President

Andrea Kunk is the new president of Peerless Technologies. Andrea joined Peerless in June 2000 as the company's second employee and helped drive the company's growth to more than 500 employees in 21 states and over \$100 million in annual revenue. Peerless, with an office in the SS&TP and headquartered in Dayton, OH, provides engineering, aerospace, program management, cybersecurity, software development, business operations, and other professional services to the Air Force, Navy, NASA, and other government customers.

Excelligent Receives SDVOSB and SBA 8(a) Certifications

Excelligent received their Service-Disabled Veteran-Owned Small Business (SDVOSB) and Small Business Administration 8(a) certifications. The potential benefits are that government limits competition for certain contracts to businesses that participate in the SDVOSB program and sets aside certain contracts for members of the SBA 8(a) program to bid on exclusively. The company is a project management and control consulting firm that is knowledgeable in systems engineering and production processes. Excelligent has contracts with Sandia to provide project management services to support major modernization programs.

PADT Announces 3D Printing Success

PADT, a globally recognized provider of numerical simulation, product development, and 3D printing products and services, was named a Stratasys Diamond partner for their continued success selling the 3D printing manufacturer's complete line of products and providing stellar support service. PADT's elevation to this level was due to the continued increase at Sandia and Los Alamos national laboratories of Stratasys Additive Manufacturing systems. This new status, and continued adoption of Ansys technology at the national labs, will allow PADT to invest more into growing their operations in New Mexico and at the SS&TP.

New Members Join the SS&TP CAC

Newly elected New Mexico State Representative Meredith Dixon - District 20 and Bernalillo County Commissioner Adriann Barboa - District 3 joined the SS&TP Community Advisory Council (CAC). The SS&TP CAC members provide guidance and input on current and future activities for the Park. Both the State of New Mexico and Bernalillo County are key partners in the SS&TP.

AVAILABLE SPACE, BUILDING, AND LAND

Are You Seeking New Space?

The SS&TP has spaces ranging from 500 to 8,344 square feet, a 36,000-square-foot building for purchase, and land for sale, lease, or exchange to construct a new building. Contact Linda von Boetticher to learn more about this technology community.
