

In 2013 we decided it was time to expand our offices. We drove into the SS&TP and knew this is where we needed to be. The location gives us great access to our customers and the type of technology-oriented businesses that we prefer. Being in the SS&TP has had a tremendous impact on our business and is a large part of our 30 years of success as a company.

Eric Miller, Principal, Simulation & Business Technologies, PADT

COMPANY, ORGANIZATION & PARTNER NEWS

PADT Celebrates 30 Years in Business

Phoenix Analysis & Design Technologies (PADT), located in the SS&TP since 2013 and headquartered in Arizona, is celebrating its 30-year anniversary. The company has grown to employ over 95 people located across six states including New Mexico. PADT is an engineering product and services company that focuses on helping customers who develop physical products by providing numerical simulation, product development, and 3D printing solutions.

Partners Hold Public Art Project Presentations and Tours

The SS&TP and the City of Albuquerque's Public Art Urban Enhancement Division held a presentation at Cooperative Educational Services for five artist finalists, chosen from 151 applicants, who traveled to Albuquerque to meet with the partnering SS&TP companies as part of the process of developing technology-based public art proposals. The artists, Ball-Nogues Studio, Ivan Toth Depeña Studio, John Fleming, Hadad-Drugar, and Studio KCA, showed their work and the companies, BioFlyte, BlueHalo, IDEAS Engineering & Technology, Rocket Lab, and TEAM Technologies, gave overviews. The artists also toured the Park companies' facilities and scouted out locations for the public art in the SS&TP.

SS&TP Holds Security in the Park Meeting at BlueHalo

A Security in the Park meeting was held at BlueHalo for representatives of SS&TP companies and organizations to share their concerns and discuss possible solutions regarding security and safety in the Park. The option of Park companies and organizations banding together to hire a security company to patrol the SS&TP was discussed. Participants included Albuquerque District 9 City Councilor Renée Grout, Foothills Area Commander Shawn Garrett and Crimes Prevention Specialist Samantha Martinez from the City's Police Department, and Smart Cities Deployment Lead Michael Stuart from the City's Real Time Crime Center.

Excelligent Receives GSA MAS Contract

A General Services Administration (GSA) Multiple Award Schedule (MAS) Contract was awarded to Excelligent, a Minority-Owned Service-Disabled Veteran-Owned Small Business. The award of the GSA MAS Contract is the result of an extensive evaluation process conducted by GSA, and serves as a testament to the company's capabilities, performance history, and customer satisfaction. The company is a project management and control consulting firm that is knowledgeable in systems engineering and production processes. Excelligent has contracts with Sandia to provide project management services to support major modernization programs.
