

37 COMPANIES AND ORGANIZATIONS • 2292 EMPLOYEES • \$368 MILLION OF INVESTMENT

Applied Technology Associates (ATA) is thrilled to be recognized by a large aerospace prime contractor (Northrop Grumman) for something we work at every day, which is to engineer top quality products and focus on achieving high customer satisfaction.

Dan Gillings, President, ATA

COMPANY NEWS

ATA Honored by Northrop Grumman • ATA received a World Class Team Supplier Award from Northrop Grumman for supporting their Global Supplier Diversity Program. The recognition was given to ATA for providing outstanding performance and support to the Northrop Grumman Modular Space Vehicle program in support of the Operational Responsive Space organization. ATA's Systems Test and Evaluation Business Unit completed its tasking for the Assembly, Integration, and Test (AI&T) of the Northrop Grumman designed modular spacecraft bus at ATA facilities in the SS&TP.

Raytheon and ATA Host Company Leadership Luncheon

The SS&TP Program Office recently organized a Company Leadership Luncheon which was co-hosted by Raytheon and ATA. It was an informal gathering for Park leaders to network and share company updates. Albuquerque Police Department Area Commander, John Theis, attended the luncheon to provide expert insight on keeping the Park safe. Park companies and organizations are now taking proactive and preventative measures to enhance safety and security at their own facilities.

Luncheon hosts Rhonda Peyton from ATA and Rick Knight from Raytheon

RECENT EVENTS

Jim Dines
NM State Representative, District 20

New Mexico Representative Jim Dines Visits the Park

SS&TP hosted newly elected New Mexico Representative Jim Dines for a briefing of Sandia's Technology and Economic Development programs. The visit included a tour of the SS&TP and an overview of the New Mexico Small Business Assistance (NMSBA) Program. Jim previously served as a small business owner who operated his own law firm for over 20 years. His new role will enable Jim to support the SS&TP and NMSBA.

SS&TP/C3 Community Advisory Council Meeting

The SS&TP/C3 Community Advisory Council convened for its annual meeting on January 27 at the National Museum of Nuclear Science & History in the Park. The council was broadened to include additional leaders to serve as advisors for the new Center for Collaboration and Commercialization (C3). The informative session included exciting updates on the project and allowed members of the council to provide advice and guidance on future activities.

Center for Collaboration & Commercialization (C3)

We invite you to follow the continued progress of C3 each month in the Park Post. Here is a recap of recent C3 activities:

August 2014: Sandia President and Lab Director Paul Hommert approved moving forward with the C3 concept.

October 2014: Sandia hosted a news conference to announce C3. Paul Hommert was joined by Mayor Berry from the City and Lisa Kuuttila from UNM for the announcement.

December 2014: U.S. Senator Martin Heinrich introduced legislation to accelerate tech transfer by establishing off-campus microlabs to serve as the "front-door" to national laboratories.
