

SANDIA SCIENCE & TECHNOLOGY PARK

July 2014

We are honored to announce the Business Advisory Council here in the Sandia Science & Technology Park (SS&TP) because this community is reflective of the successful public-private partnerships that are needed to create an impact in New Mexico.

U.S. Representative Michelle Lujan Grisham

36 Companies and Organizations, 2287 Employees, \$351 Million of Investment

Recent Event

New Business Advisory Council Formed – Congresswoman Michelle Lujan Grisham held a press conference on May 27 at EMCORE Corporation to announce the formation of her new Congressional Business Advisory Council. The council is comprised of 14 local business leaders that will work with the Congresswoman on job creation initiatives and replicating Albuquerque’s success stories. The council includes Jackie Kerby Moore, Executive Director, SS&TP, as well as leaders from economic development groups, private industry, and other high-tech business leaders.

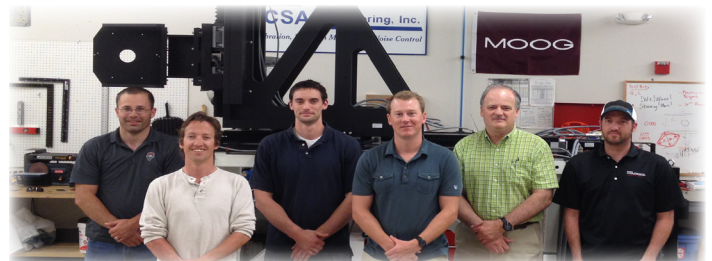

Jerry Winton, Director of Operations, EMCORE; Congresswoman Michelle Lujan Grisham; and Maggie Smith, Marketing Coordinator, EMCORE

Members of the new Congressional Business Advisory Council

Company News

Moog-CSA Albuquerque Recognized for its Optomechanical Capabilities – The company, recognized as a center of excellence for Moog’s optomechanical systems, recently completed fabrication, testing, and delivery of its precision optical metrology systems. During the last 3½ years, the total for all components delivered by Moog-CSA for the optical test system is valued at just over \$19M. The systems’ support stands are used to precisely position an interferometer within a large scale ground test system. These ground based systems are used to characterize an optical payload.

Moog’s Optical Metrology Motion Control System Team: Josh Williamson, Jake Dawson, Ryan Sneed, Cody Griffiee, Mark Mimovich & James Deprez

The National Museum of Nuclear Science & History Museum Photo Competition – The museum will host a photo art exhibit that invites members of the community to share their photographic talent and eye for everything that is science, technology, engineering, art and mathematics (STEAAM). The “Atomic STEAM Photography Show” is open to all members of the public. The winner will receive a cash prize and also have their work debuted at the museum November 8, 2014 through January 4, 2015. Deadline for submission is August 29. Please visit www.nuclearmuseum.org for more info.
