

We are excited to have space inside the TEAM Technologies building at the SS&TP. This will expand our footprint in Albuquerque, and by leveraging TEAM's manufacturing capabilities, we can enhance our component-level supply chain.

Charles Call, CEO, BioFlyte, Inc.

COMPANY AND ORGANIZATION NEWS

BioFlyte Opens Office

BioFlyte moved into the Sandia Science & Technology Park (SS&TP). The company recently raised \$1.25 million in new funding to accelerate commercialization of their fieldable mass spectrometer that enables miniaturized, low-cost, and low-power detection and identification of airborne microbes and toxins in real-time. Their instruments identify microbes including spores, vegetative bacteria and viruses, bio-toxins, opioids, and other airborne threats to our safety and security. BioFlyte has 6 employees in their SS&TP office.

Excelligent Expands Office Space and Celebrates 2 Years in Business

Excelligent expanded their presence in the SS&TP from 2,500 square feet to 7,500 square feet and is celebrating their second anniversary. The company has 5 employees that work in their SS&TP office, and with the expanded space, can now house more employees and contractors. Excelligent is a project management and control consulting firm that is knowledgeable in systems engineering and production processes. The company, a Small, Hispanic-owned, and Veteran-owned business, provides integrated management solutions to federal customers and contractors, including NNSA Defense Programs. Excelligent has contracts with Sandia to provide project management consulting services to support major modernization programs.

DSA Supports ESS at Sandia

Data Systems Analysts (DSA) currently supports the Energy Storage Systems (ESS) Research Program at Sandia National Laboratories with data transmission connected to research work focused on distributed energy resources. DSA's Integrated Data-Driven Demand Management tool focusing on Grid-interactive Efficient Buildings (GEB) is a comprehensive framework that encompasses hardware, software, and advanced analytics to deliver energy efficiency, load shifting, and load shedding capabilities. DSA, a 100% employee-owned services provider, offers solutions encompassing program and knowledge management, and business process engineering.

CES Constructs New Building

Cooperative Educational Services (CES) is constructing an 18,000-square-foot building on two acres of land west of the Sandia Synergy Center in the SS&TP. This facility will soon be the new home for the organization and nearly 30 employees. CES is a purchasing cooperative serving all K-12 schools, all higher educational institutions, charter schools, and municipalities and counties in New Mexico.
